

## 5400 Controller Upgrade!

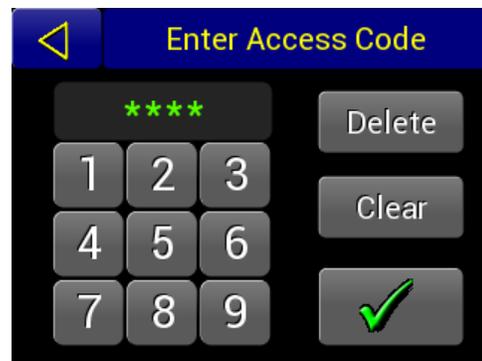

Artisan Controls is pleased to announce the **next generation** of our extremely popular 5400 Color Touchscreen Controller. This upgraded platform includes a more powerful microcontroller, increased code storage, and a more sophisticated graphics system. While this advanced design retains the previous dimensions, inputs, and outputs of our current 5400, our **next generation** controller incorporates the following enhanced features:

- **Increased Program Size:** The space for code and images will be dramatically increased (2X to 4X larger).
- **Higher Processing Speed:** Increased from 80MHz to 200MHz.
- **Firmware Updates:** Operators will be able to easily benefit from firmware updates using the USB port and flash drives.
- **Improved Graphics:** Provides modern 3 dimensional buttons and advanced animation capability.
- **Availability:** We anticipate prototypes to be available in Q3 of 2019 with volume production commencing in Q4 of 2019.
