Re: REACH Compliance Declaration

Dear Valued Customers,

The European Regulation 1907/2006 or Registration, Evaluation, Authorization, and restriction of Chemicals (REACH) entered into force on June 1, 2007. The goal of REACH is to ensure the protection of human health and the environment from the risks that can be posed by chemicals.

Registration:

Artisan Controls Corporation does not manufacture chemicals, preparations, or articles that intentionally release substances under normal operating conditions and therefore does not fit within the scope of entities that are obligated to pre-register and register with REACH. Artisan and its key suppliers are committed to fulfill our obligations under REACH.

Restriction of Chemicals:

We certify that our products comply within the restriction as defined in Annex XVII titled "Restrictions on the manufacture, placing on the market, and the use of certain dangerous substances, mixtures, and articles" dated June 26, 2009

Substances of Very High Concern:

On December 17, 2015 ECAH placed 168 substances on the Candidate list of Substances of Very High Concern for authorization. To the best of our knowledge, Artisan Controls products are not intentionally manufactured or formulated with compounds and substances above the 0.1% threshold by weight listed in this REACH document.

Sincerely Yours,

ARTISAN CONTROLS CORPORATION

A handwritten signature in blue ink that reads "Laurence P. Affelt". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
